Subject: Solar ramps no longer ordered as kits, but only as individual components

Dear customer,

In this product update we want to inform you about an upcoming change in the order process for solar ramps: ValkDouble, ValkTriple and ValkQuattro. Per July 1st the solar ramps can no longer be ordered as pre-packed kits on one article number, but instead the required parts can only be ordered as individual components. The reason for this change is to simplify the logistical process and stock level management for our customers and for ourselves.

What are the required components per type of solar ramp?

In the overview below, the required components and quantity per type of solar ramp are found. As shown there are many components that are used in two or all three the types of solar ramps. This makes the stock level management more efficient.

System Article number	ValkDouble* 757008	ValkTriple* 757010	ValkQuattro* 757012

Article number	Description	Quantity	Quantity	Quantity	Image
750520	Concrete mass block	4	6	8	
7272100	Trapezoidal profile L=2098mm	2	2	2	
7271010	Trapezoidal profile L=1009mm		2	4	
741801000	Anod. roof carrier L=1000 + coupling 87mm		2		
741801600	Anod. roof carrier L=1600 + coupling 87mm	2	2	2	
741802000	Anod. roof carrier L=2000 + coupling 87mm			2	
759270-04	Box with small materials ValkDouble	1			
759270-02	Box with small materials ValkTriple		1		
759270-06	Box with small materials ValkQuattro			1	
759270-07	Support set ValkDouble	1			
759270-08	Support set ValkTriple		1		
759270-09	Support set ValkQuattro			1	

ValkKITSplanner

When a solar ramp is calculated using the online [ValkKITSplanner](#) software, the required components per configuration are already specified in the bill of materials.

In case you currently have stock of components of solar ramps, but you need help with identifying the correct article number, please feel free to contact us.

Best regards,

Paul van der Meer
Operations Manager
Van der Valk Solar Systems
